No one appeared in opposition; Councilmember Carter moved to close the public hearing and approve the resolution.

Adopted

Yea: 5 - Councilmember Carter III, Councilmember Harris, Councilmember Helgen, City Council President Lantry and Councilmember Stark

Nay: 0

Absent: 2 - Councilmember Bostrom and Councilmember Thune

- 17 [RES 10-1291](#) Reciting a proposal for a financing program for a multi-family rental housing development, giving preliminary approval to the project and the program pursuant to Minnesota Statutes, chapter 462C, authorizing the Housing and Redevelopment Authority to issue housing revenue bonds and authorizing the preparation of necessary documents and materials in connection with said project and program (Northern Warehouse Project).

Sponsors: Thune

Stephanie Hawkinson, Department of Planning and Economic Development, said the project is in Lowertown and it is in need of rehabilitation. Part of the financing package is the tax exempt revenue bonds. She will be seeking approval from the Housing and Redevelopment Authority (HRA) for an additional \$500,000 of home funds. They are receiving with these bonds, if approved, 4% tax credits.

Councilmember Harris asked if this a conduit issue and Hawkinson responded that it is.

Harris said if preliminary approval is tonight, it should be done as a package deal. He asked what happens if they do the bonds and the city doesn't give them the \$500,000. Hawkinson responded they would have to revisit the budget. Preliminary approval for the \$500,000 was giving this past summer contingent on putting together the financing package for the bonds and the tax credits. She was to go back to the HRA once they were able to get the other financing in place for final approval on the home funds.

Council President Lantry asked if the \$5.7 million is just a conduit issue and Hawkinson responded that it is. Lantry said the confusing part is that this will likely be before the HRA. Hawkinson responded she was told by the bond attorney that it needed to be a public hearing at the City Council.

Harris stated that typically they would get the full project overview. Hawkinson stated she will be coming to the HRA in a few weeks with the whole package. She was advised by the bond attorney that this was the first step. The developer was also anxious for them to get approval.

Lantry suggested that the Councilmembers could get a synopsis of the action taken to the HRA agenda item which may be a way to put it all in perspective. Harris added that the developer could get them an overview of the project. Hawkinson responded she can do this.

No one appeared in opposition; Councilmember Carter moved to close the public hearing and approval.

Adopted

20 [RES 10-1422](#) Approving year-end adjustments to the 2010 budget.

Councilmember Helgen stated his biggest concern is the last page, Special Funds, PED, 930, described as interest on investments. The total is \$1.6 million. He asked where the interest is coming from and the sources of those funds.

Scott Cordes, Office of Financial Services, explained that it's the interest earnings on the 2007 ISP bonds. The proposal here is to acknowledge those earnings that had been accumulated because the money was slow to be spent and transferred out to the general fund.

Councilmember Helgen asked if the underlying financial source for the investing bonds is the half cent sales tax. Cordes responded yes.

Helgen asked the reason for using the proceeds from the half cent sales tax bond issue, rather than spending reduction or other financing. Cordes responded that part of the interest earnings is eligible to be used in the general fund and that is the proposal before the Council. In order to address the overall revenue challenge the City is facing in 2010, the proposal is a combination of \$1.8 million in spending reduction coupled with the \$1.6 million of review increase from interest earnings.

Helgen said this funding could have been used in the economic development functions within the STAR program, cycled back in, and leveraged additional job creation (private sector development, economic development) just as easily as it could have been used to finance the general fund. Mr. Cordes concurred

No one appeared in opposition; Councilmember Helgen moved to close the public hearing Yeas – 6 Nays – 0

Helgen said he does not think this use of interest earnings is a good use for the flexible dollars that could go into economic development, supporting our commercial corridors, and job creation. A lot is heard about the need to refocus on that and that there are not the resources available to let these projects go, yet a lot of private sector dollars is leveraged whenever they make these investments using the STAR program. It would be better to get serious about making those budget reductions whenever they think about the legislature coming up.

Councilmember Harris stated it would be nice to use flexible dollars for a variety of things although he would prefer City capital type projects that need to get done as opposed to the things Helgen suggested as they have to recognize the environment from a tax standpoint and a responsibility to provide a budget that is affordable to the community. He said he appreciates the Mayor supporting the concept. What the Mayor and staff had decided to do with it is responsible because it is an attempt to keep the budget under control and keep the city affordable.

Councilmember Harris moved approval.

21 [PH 10-8](#)

Final Hearing on the proposed 2011 Budget and Tax Levy (hearing will not start before 6:00 pm).

Margaret Kelley, City Finance Director, gave an overview of the Mayor's proposed 2011 budget with a PowerPoint presentation.

Barry Fox, 2271 St. Clair Avenue, addressed the Council and said he had a double digit increase in his property taxes. They are about \$6,000 this year if he includes the street maintenance assessment. He is living in an area in which it is assumed that it is okay to keep charging this kind of amount. It was only 4.7% this year for the City's fee; the school district wants 17.6% more; and Ramsey County wants to charge 8.8% more. He is currently unemployed and this is not something he can live with long term. When he bought the home in 1974, his hope was that he would be able to always live there.

Greg Copeland appeared and stated they are not getting a big turnout tonight because people are happy with the zero percent increase.

Councilmember Stark moved to close the public hearing. Yeas – 6 Nays – 0

27 [ALH 10-355](#)

Appeal of Rick T. Wilson to a Summary Abatement Order at 2234 STILLWATER AVENUE.

Sponsors: Lantry

Marcia Moermond, Legislative Hearing Officer, stated a summary abatement order was issued for removal of a partially constructed garage. The compliance date was on November 4. She had a legislative hearing on this matter on November 9. She showed the Council pictures of the garage.

Ms. Moermond recommended the Council grant until December 31, 2010 for completion of the building of the garage or removal from the property. A building permit was applied for, which met the November 19 deadline. If the project is not complete by January 1, the City may proceed with demolition if permits are not signed off.

Rick Wilson, owner, appeared and stated the garage is taking time to get done because of finances. He has hired a contractor to help with the assembly and finishing of the project. Finances are an issue as well as the weather. If he can show he is making an effort, he is hoping he can get more time.

Council President Lantry asked when the permit was originally pulled. Wilson responded that tear down was in 2004. They finished the footings in 2005 and the walls went up in 2007.

Ms. Lantry stated that Code Enforcement gave him seven days to finish the garage, which is too quick, but in looking at the history of the property, someone from the City has been out every year telling him to finish the garage. She asked when the garage will be done.

Joseph Felt, Felt Construction (phonetic), stated he does not know a lot about the past history. The biggest mistake is that the owner didn't hire a contractor to start with. They just signed a contract on the 8th and the hearing was on the 9th. They are behind on a lot of their work right now and are going into a 'weather permitting' time of year. He would like to have until March 31. Lantry responded it has been six years and in that time it has three walls and no roof. She understands they are in the winter season but the owner received the orders the end of October. Mr. Felt responded that Mr. Wilson contacted him right after that. He is hoping to get it done a lot sooner but it will depend on weather conditions. They have procured some materials that are on site.

Ms. Lantry said she would like this item to come back before the council so they can get a status report. They have three weeks to make progress and there needs to be significant progress. They then can bring it back within another three weeks.

Council President Lantry moved to close the public hearing and lay over to December 22.

Public hearing held and closed. Laid over to December 22

Absent: 1 - Councilmember Thune

- 28 [ALH 10-390](#) Appeal of Mark Cemensky to a Notice of Condemnation Unfit for Human Habitation Order to Vacate at 274 SIDNEY STREET EAST.

Sponsors: Thune

Marcia Moermond, Legislative Hearing Officer, stated there had been significant excavation and a hole created in the yard and into the basement with a Bobcat to redo some of the venting. It has been moved to a Category 2 registered vacant building and the appeal is whether it should be a Category 2. Ms. Moermond said she found no reason why it should not be a Category 2 with a code compliance conducted and annual vacant building fees.

No one appeared in opposition; Councilmember Stark to close the public hearing and deny the appeal.

Appeal denied Yeas – 6 Nays – 0
