Hello,

I'm sending this information on for Bob Fluegel who was going to attend the meeting along with the owners tonight. He has been called away on a family emergency and will not be able to attend. I have included the owner and the city rep we have in this case.

Some of the things that were requested from Bob are attached. The scope of work and the estimate is also provided. We are looking to move forward on this project at 684 Sims to get the home back up to code per the city and work with the owners daughter to get this work completed.

Thanks,

Jessie Bowers
