Subject: Biking downtown and curbside parking.

I believe that they are BOTH very important to the liveliness of our downtown with its increasing number of small cafes and theatres, retail, and museums and the increased number of residents. This voting member of Ward 2 remembers those pre WWII days when it was so easy to park near one's job or destination. When the new council is elected I hope it will listen to those downtown not just to the managers of office buildings and banks. Leila D J Pouollada Linwood Ave, 55105
