Plastic lattice panels erected over 10yrs. ago to grow vines and provide much needed privacy for my daycare children and for us. please read attachment

where they arrive and depart, where we picnic, where the kids take off their swimsuits to hang on railing to get into their dry clothes, if this privacy fence was removed he would have two sets of windows less than 50 feet from us (our deck) where he could watch us. my fears of his motives for watching us so much were verified when last summer a man from the end of the block came to me to ask me questions about this man. He said this man is "stalking" his kids, he drives by his house slowly and stares at his kids until one day he threw something at the "stalker's" car and told him to get out and don't come back.

If this is removed not only will he have a good view of my deck but he has a camera that would be visible to my deck.

This structure has been up for over 10 years, I called the dept of safety and inspections before we hired the welder to built and erect the frame for the lattice, I went into detail about our plans and asked if it was something we could do. I spoke to Tom and his words were "put it up" and we went to great lengths to insure safety and we think 10yrs of it being secure in all weather conditions proves its safety.

for us this is a very important part of our safety and security

I also forgot to mention he walks around his yard with his pants down so low he exposes his butt. neighbors and daycare parents can verify this!
