

ADDENDUM TO EXCEPTION TO GENERAL HOURS
OF OPERATION APPLICATION

Macy's Retail Holdings
411 Cedar Street, St. Paul, Minnesota

Applicant requests the exception to hours of operation due arising from the closure of its Department Store due to:

- 1) Life safety issues resulting from the erection of demising walls adjacent to the easement areas within the Macy's store. Demising walls would be required due to the location of the easement area (middle of the third level showroom floor) which runs to Skyway 16. Such demising walls would hamper ingress and egress through the showroom floor in the event an emergency.
- 2) Mechanical and Technical Issues which would require the erection of demising walls running the entire length of the store footprint, the need to provide lighting, and measures to address the aforementioned life safety issues (fire protection, sprinklers, security).
- 3) Vagrancy and the potential for unattended and unoccupied space to become an attraction to vagrants and other undesirables.
- 4) Public access will continue to be provided at the street level within one block of Skyway 16. Such access will not substantially alter the pathway or usage which exists today.
