**Subject:** Sound Level Variance - University of St. Thomas September Concert  
**Attachments:** Geographic Profiles - MacGroveland...pdf

Hi

As a neighbor who can not attend the meeting i wanted you to know that i have no objection to the sound variance being requested.

I view the many colleges we have in St Paul to be a real asset and that they greatly contribute to great quality of life we have in the Macalester Groveland neighborhood which was recently substantiated in the American Academy Survey. Concerts are a normal part of college life, if the sound is controlled is an acceptable thing
