Hello,

I am writing today to voice my support for ordinance 24-32. In particular, I advocate for extending franchise fees for the city of Saint Paul. I strongly support using this funding for climate action, including funding the Sustainability Coordinator position and the Power of Home program.

It is past time that the city invests in solutions to climate action at scale. Climate change will not be getting better without intentional, aggressive action at all levels. Its impacts are felt even today and disproportionately harm those most disadvantaged.

Ordinance 24-32 is the first step of many that needs to be taken to begin to address the climate emergency.

Thanks for your consideration!
