Why are you interested in serving on a board or committee?

I have lived in Saint Paul most of my life and have always been interested in and proud of its architectural and cultural history and heritage. I have lived in my 100-year old home in Saint Paul for almost 20 years and have experienced first-hand some of the rewards and challenges of trying to maintain and update a historic home. I am particularly interested in how different immigrant groups have influenced Saint Paul history, culture, and architecture, and I am interested in exploring ways to maintain and celebrate that history.

What skills/training or experience do you possess for the committee(s) for which you seek appointment?

I have experience serving on boards of non-profit organizations. Until very recently, I served on the Board of Directors and Executive Committee of ALFA International, an international law firm network. I previously served on the Board and Executive Committee of the Lawyers' Committee for Civil Rights Under Law, a national civil rights organization based in Washington D.C. I have an undergraduate degree in history from the University of Minnesota, and I have been a member of the Minnesota Historical Society and the Ramsey County Historical Society for many years.
