I'm A resident at 2177 Lincoln Ave, since 2000. The college has taken over parking on our block. It's steadily increased since we moved here, with the changes in the neighborhood. I don't know how we can justify another rental property and more parking! There's already a issue on Lincoln. Sometimes, We can't even park in front of our house and we pay for a parking permit. Our property taxes have increased over the years, and the beauty of our neighborhood has decreased at a disappointing rate. We can't believe that the City Council in good conscience can allow the charm and beauty of one of the most desirable established neighborhood's in St.Paul to be jeopardized. We are strongly united with our neighbor's to fight this bill. We oppose the construction of the private dormitory on Grand and Finn. We support the student rental ordinance.
