---

Good morning.

I switched this back to a category II vacant building as I was told this home is vacant and still has multiple code violations. I spoke with the PO, Ben Roberts, he claimed, as he did in the appeals hearing, "that all the violations have been corrected." He also claims "that he is being harassed" and he "wonders why he was only given 30 days to make repairs when other appellants were given much more time for lesser violations?" Lastly, he said "he plans to appeal the cat II status." Just passing along the info I have so we all can stay on the same page.

Thanks  
Matt
