I am currently in receipt of your assessment of charges for next years right of way maintenance fees. I and my neighbors are NOT happy with the condition of our alley. You had a crew of 1(one) come out and grade the alley but failed to redistribute the necessary gravel covering. The alley is no more than a dust producing hazard and when it rains we deal with the mud and wash away that accumulates at the entrance of the alley and winds up in the sewers. We are asking for gravel to be distributed in our mud filled dustridden alley and help make us feel that our city cares for us. As for charges, your rates rise every year, but I see no increase in my disability money or my pay check from my part time job. Maybe this year you could skip them and give us some relief.

Thank You  
Sincerely:

Jon J. Monroy
