Mr. Mancini,

Looks like after looking at the fuel burning testing, she reduced from \$555 to \$300. If you wish to contest further, you may attend tonight's public hearing at 5:30 p.m. in Room 300 Council Chambers.

I think Marcia was mostly looking to validate that I actually sent the email (and report) to Brian on Sept 23rd. His office has a clean copy.

Let me know if Marcia needs to read the report. If yes, I will scan it again and send it.

Thanks

Is there a way to make it darker. It's hard to read .

Mai,

I think the file was too large. I scanned to docs and have attached them to this email.

Please see my explanation in my initial email yesterday to Marcia that didn't get through.

Thank you,

Mark

Marcia,

Thank you for your time and patience this morning.

Per your request, I am forwarding the email I sent to Brian Schmidt on September 23, 2014 with the fuel burning equipment safety test report attached. The test report was logged by Brian late November, but you can see from the email date that he had it on Sept 23rd.

With this evidence, I believe you said you would recommend removing all of the Administrative Fees (\$155) and one of the Inspection charges (\$100). That will leave a balance due of \$300.

If this is correct, would you please tell me if I send payment to the Department of Safety or pay it in my next property tax payment.

Thank you again for your help.

Best regards,
Mark

Brian,
Please find the subject report attached.
Thank you,
Mark
