*Patient Information: Watkins, Nancy MRN: 1159915  
DOB: 07/09/1941 Gender: F*

*Provider: Angela M Voight M.D. Encounter Date: 06/05/2017 2:00PM*

To whom it may concern,

I have seen the patient Nancy Watkins for a left shoulder injury with symptoms consistent with a rotator cuff tear. Nancy continues to have ongoing pain and physical limitations secondary to her shoulder condition, specifically with lawn care and transportation of lawn machinery. Please consider this injury during review of application for variance for placement of a shed on her property.

Sincerely,

Dr. Angela Voight
