---

Hi - We live in the middle of the block on Portland between Albert and Pascal.

I just wanted to voice that while I am not at all happy about the noise and disruption of outdoor services, I understand the need for it because of COVID-19. I hope that this is a one-time request and is not continued in future summers. I would be distressed if outdoor services became a regular aspect of Bethel.

In non-COVID times, there is already a lot of foot traffic, parking issues, and noise associated with people coming and going. I don't like it, but we live with it.

Thanks for listening.
