CORRECTION NOTICE - COMPLAINT INSPECTION

RE: 1039 WAKEFIELD AVE
Ref. # 111851

Dear Property Representative:

An inspection was made of your building on May 8, 2012 in response to a referral. You are hereby notified that the following deficiency list must be corrected immediately. **A reinspection will be made on or after June 12, 2012.**

Failure to comply may result in a criminal citation or revocation of the Certificate of Occupancy. The Saint Paul Legislative Code requires that no building shall be occupied without a Certificate of Occupancy. The code also provides for the assessment of additional reinspection fees.

DEFICIENCY LIST

1. West retaining wall deteriorated - SPLC 34.08 (5), 34.31 (3) - Repair, replace and maintain all exterior surfaces on fences, sheds, garages and other accessory structures free from holes and deterioration.
2. West side of property - SPLC 34.08 (2) - All premises shall be graded and maintained so as to drain water away from occupied structures and minimize the accumulation of water. This work may require a permit(s). Call DSI at (651) 266-9090.-After the retaining wall is repaired/replaced, a passive swale must be created between the new retaining wall and the sidewalk that runs along the house. Additionally, The flat roof should have a down spout with a leader to direct the water towards the swale and front yard. The valleys should have gutters and down spouts installed as well or at least diverters installed to eliminate the large quantity of water that shoots off the valleys over the retaining wall and ponds on the neighbor's property.

Saint Paul Legislative Code authorizes this inspection and collection of inspection fees. For forms, fee schedule, inspection handouts, or information on some of the violations contained in this report, please visit our web page at: <http://www.stpaul.gov/cofo>
