Subject: Sound level variance request from Met Council

Dear Mr. Kaisersatt,

I was informed today of the sound level variance request from the Met Council to extend the construction day for the Central Corridor Light Rail line. We feel that extending the time until 7:00 PM is completely reasonable and would support such a variance. In regard to extending until 10:00 PM on an "occasional" basis, we are open to that concept, but would request some limitations or guidelines be established (for example, the extension to 10PM shouldn't exceed x number of occurrences; or should not occur on two consecutive nights, etc).

Thank you.

Sincerely,

David Imdieke
