Re: Sewer repair/replacement

The sewer line is shot from the basement out to the boulevard area where it appears to be just fine. The front porch has sunk due to the collapsing sewer line. The private sidewalk will be lost due to the work.

Bore out a new 4" sched. 40 PVC line from the basement. Bore under city sidewalk. Sleeve existing VCP (vitreous clay pipe) from boulevard to main with 4" sched. 40 PVC. \$8,500.00.

Replace private sidewalk \$900.00

Jack up porch, pour new footings, install new beam and lower porch onto it. \$4,500.00

Total: \$13,900.00
