Yes. Closed for maintenance isn't a clear notice of out of business. Lets move ahead.

Christine:

Kris went to My Living Room Cafe today and here is what she said:

"I was there today and there is a Closed for Maintenance on the window. Another sign indicated a meeting for Mn. 350 has moved to Trotter Cafe around the corner. There was still beverages in the coolers and table and chairs set up but the building was locked and no lights on. "

What do you want to do? We received the letter back on 7/13/11 from USPS stating "return to sender-unclaimed-unable to forward." Should we just move ahead with adverse action and put it on the Council Agenda for license suspension and imposition of \$500 penalty?
