CITY CLERK

Department of Safety and Inspections
To Whom It May concern :

I recieved a letter from your department about a company that's applying for a license to operate a business on the corner of Arcade and E Orange Ave.

This location has been a pain in the butt for YEARS with the previous owner, he had cars parked all over the streets in front of all our homes, never moving them until I called the police to complain and have them marked... he never cut the grass or shoveled snow unless I called and complained. He was also told that he could only have the amount of cars that his lot would hold, and he did what ever hewanted, he had so many cars he had them on 2 blocks ...

constand complaining to the authorities about the mess he had got really tireing, which is why I don't want another auto place moving in this location.

You can site all the rules and regulations you want, and of course they will say they understand and will comply, but the minute they get in, it all falls on deaf ears...

I am asking that this petition for his permit be denied.

thank you for listening to my concerns, I'm hoping that the rest of the neighbors also responded

Subject: 1265 Arcade St

We have a strong objection to another Second Hand Dealer of Motor Vehicles moving into our neighborhood.

The neighborhood is already inundated by the traffic from the Koob Moo Funeral Chapel.

We sincerely hope that the city of Saint Paul does NOT give license to Camauto Sales LLC

Thank you,

Mr and Mrs Roberts
