SYNOPSIS:	<p>The Saint Paul Fire Department was dispatched to the report of a mattress fire outside of a vacant home. Firefighters arrived on scene to find an extinguished mattress fire located in the side yard of a home. The home was posted vacant and found unsecured. Investigation and interviews conducted on scene determined squatters were living in the vacant home and starting fires on the floor in multiple rooms to remain warm. The ignition source was most likely an open flamed device. The first fuel ignited was most likely wood and/or paper. The act that brought these two together was most likely an intentional human act. The classification of fire cause is incendiary.</p>
