Objectives

The Skyway Committee exists, under the auspices of the CapitolRiver Council, to provide input to the City of Saint Paul on skyway-related issues. We represent the interests of our stakeholders: the property owners, residents, employees and business owners of District 17. To that end, here are our primary objectives.

- Consider requests for waivers to standard skyway policies
- Work to correct violations of skyway policies
- Help maintain safe and secure skyways
- Improve skyway navigation
- Enhance and expand skyway system scope, tenant success, comfort and aesthetics
