Subject: File # 17-058-600 MacQueen Equipment

Good morning, Mr. Dermody - When I checked with Scott Renstrom yesterday about the requested change in zoning for MacQueen, he assured me they are asking to be able to sell outside. I am totally comfortable with this since it must be difficult to sell a firetruck or other large commercial vehicle without the customer's being able to see it outside. MacQueen is a good neighbor, and I probably wouldn't protest much less than a request to put in a feed lot for pigs. Since I have been voted Most Likely to Protest for many years (snicker), I am pleased to be able to say that I am NOT protesting this change of zoning.
