	02/12/2004	04 042472	Closed No Action	PV - Project Facilitator Review	Project Applicant James C Olson - Mr. Olson is owner of the building complex which houses several retail spaces, a bar, and coffee/sandwich shop. The space at 1414 is two retail spaces (18'x60') and shared one toilet room in the back storage area (16'x36'). In 2002, work started on this back area to add two new restrooms. No building or plumbing permits were applied for. The owner was informed that he had to bring these restrooms into compliance but failed to do anything about it. Recently, he rented one of the retail spaces to a barber who, according to the owner, started to remodel these

			existing restrooms, again without any permits. I inspected the space on 2/11/04 and observed that the toilet rooms were essentially gutted. The concrete floor was open exposing the waste piping. See sketch in address file of existing floor layout, Per my conversation with Ed Locke, I have informed owner that he needs to remodel these restrooms to provide a male and female handicapped accessible facilities. As of 2/10/04, People Plumbing has applied for the plumbing permit but no building permit has been obtained. The owner was advised of the need for a general construction permit, as well as permits for plumbing, electrical and ventilation. (see letter in "Document")

The current establishment is approximately 2800 square feet in size, has 73 seats (Fire Inspection CofO occupancy load of 97), and minimal food service.
