5. Security and/or staff will conduct outside sweeps of the building, including the patio and parking lot at least twice an hour to disperse and discourage loitering from 10:00 p.m. during any day of operation until closing and shall remain at the licensed premises until all patrons have left the property/parking lot. 10. Licensee will create and implement an egress and ingress plan for the licensed premise that will 1) ensure individuals and/or groups entering and exiting the premise will be observed by staff and 2) eliminate the gathering of patrons in exterior spaces not readily observable or controllable by staff and/or the licensee. Specifically, the licensee will a) make the front door (facing Grand Avenue) the main entrance of the licensed premises, b) make the back door (into the mall) to be as limited access as is reasonably possible, c) improve observability and eliminate unobservable areas in the patio area as is reasonably possible (minimally moving the sidewalk entrance to the patio to a location which is clearly observable from the interior active areas of the licensed premises, and d) prevent vehicular alley access as is reasonably possible. Reasonably possible shall encompass and not be limited to actions and changes the property owner will or will not allow. Within 6 months of license issuance, the licensee will submit the plan to the SPPD liaison with DSI for review and approval.
