

#25-

We have provided a list of residents in the immediate vicinity of 1784 lacrosse. These residents are completely in the Dark about this proposed rezoning. There are many questions still unanswered about the request for rezoning. The schools in the area teach approximately 1500 children within a half mile, the parents and children should be taken into consideration when making this decision. Also the zoning committee didn't have a glowing recommendation to rezone with a vote of <sup>(9-8)</sup>10-9? (don't know). With all these uncertainties I request that the city council and its members vote against the rezoning of 1784 Lacrosse.
