Reason for Exemption Request

I am single and live alone I on produce only about 2 13 gallon bags a week of garbage. I also have a lake home on lake Mille Lac's. I spend half my time at the lake and the other half at the Meadowview address. For the garbage I have 2 40 gallon containers at each home. I put the garbage in the containers and when full I back up to the garages and put them in my Suburban and take the garbage Twin City Refuse and back up to their dumpsters and unload the garbage. I own a duplex on George and Ohio street in St Paul when I go to collect rent I load the garbage and take to Twin City Refuse which is ½ a mile down Ohio street. This is very convenient for me. For the recyclables paper, cans, bottles, plastics, cad board boxes and aluminum cans I have to recycle containers at each home when they are full I back the truck up to the garages at each address and take them to the South Hennepin Recycling facility which is 2 miles from my Meadowview home they unload the recyclables for me. The aluminum cans I take to Great Northern Metal on Plato Blvd which is 2 miles from my duplex on George street. I asked the attendant at the South Hennepin recycling for their solid waste permit number but she said they do not have one because recyclable is not considered solid waste. I asked the attendant if when I give them my license if they scan the license she said Hennepin County used to but now they just enter the zip code she said some people ask for a receipt so I got a receipt the last 2 times I went there. Enclosed are 2 copies of the last 2 times I went to the 2 facilities. I have many more receipts from Twin City Refuse but none for the recycling. As you see weekly garbage and recycling service on Monday of each week does not work for me and would be inconvenient.

Sincerely,

Michael Simerson

Sincerely,

Michael Simerson
