Dear Sir:

I am writing in regard to the letter we received yesterday about the public hearing notice on the property at 1623 Maywood St. The property is still in our name because we put a Grand-daughter through Veterinary school at Ames Ia. and she got a 3 year residency at your Veterinary school at St Paul. She has been trying to find time off to get the title changed to her name since last Nov. They don't give them much if any time off. She goes to work at 6:00 in the morning and usually home by 10:00 at night, then on call. I did get hold of her last night at 10:20 to tell her about the hearing, but she was still at the hospital. She said she probably couldn't get off to go. I called your office this morning and told her the hold card we got yesterday had 5 days to get back to you, she said she would get it back for me and that I should write a letter. They were aware of keeping the snow off the sidewalks, we bought her a new John Deere snow blower to keep it cleared, but her ~~hours~~ hours at work, probably didn't get it done on time.

The line section southern Ne, just 30 mi
from the Kanasa line, and have just been
trying our best to get her an education and
a place to live while she is ~~in~~ in school.
She would like to know what takes
place at the hearing and what to do about it.
