12/12/2018 6:54 PM	A Thao	For	Legalize. Tax. Reinvest into the city. Fewer opioid overdoses. Less non lethal offenders in prison. Increased tourism. Encourages agriculture. More jobs.	
12/12/2018 1:04 AM	Ben Greilanger	For	Fewer people in prison and more money in the general fund of MN seems to make a lot of sense. Regulate it like other states and it shouldn't be a problem. I am so hopeful!	
12/11/2018 12:27 AM	Chizzo Yang	For	i am a lifetime resident of saint paul, minnesota. i fully support the legalization and decriminalization of marijuana in the city of saint paul. it will most definitely generate taxes which we could reinvest into our infrastructure, public education, police force and other aspects of the city which requires a sum amount of tax funds. the bill could be used to expunge the records of people who were charged with a marijuana related misdemeanor offense. there would be less alcohol related accidents and deaths.	+2
12/10/2018 5:52 PM	Tong Thao	For	I am writing to fully support RES 18-2095. We need fully legalized cannabis in Minnesota. Not only will this lessen the burden on our law officers, it can potentially lessen violent drug related crimes. The potential tax revenue gain for MN can be used to educate people about Marijuana as well as research into further medicinal and industrial use. There are more reasons to legalize it than to keep it schedule 1.	+2
