Please examine this statement immediately. Contact Customer Service should you have any questions or concerns. If no response is received from you within 60 days, the account will be considered correct. Finance charges on consumer Home Equity and Executive Credit lines are calculated by applying a daily periodic rate to the beginning balance of the account each day, less any payments or credits, and plus any new advances or loans. Finance charges on consumer Highland Reserve lines are calculated by applying a daily periodic rate to the average daily balances multiplied by the number of days in the billing cycle. Average daily balance is the beginning balance of your account each day less any unpaid finance charges, payments or credits, and plus any new advances or loans. Daily balances for the billing cycle divided by the number of days in the billing cycle result in the average daily balance. Annual percentage rate includes interest, but not other costs.
