

SUBJECT

Pertaining to Utility Relocation Agreement No. 02886 with the State of Minnesota providing for reimbursement of Board costs to relocate a water main at T.H. 5 Bridge No. 9300 at Shepard Road in Saint Paul.

BACKGROUND INFORMATION

Staff is seeking approval of an agreement that provides for reimbursement of Board costs associated with the relocation of water facilities within the subject project. The agreement was drafted by the State and reviewed and approved by staff and the assistant city attorney.

MnDOT intends to reconstruct T.H. 5 Bridge between Shepard Road and Fort Snelling, which will require the following water facility work:

- 1) removal and disposal of abandoned water main on the existing bridge, and
- 2) relocation of above-ground water main in Shepard Road at the northerly end of the bridge.

This Agreement No. 02886 addresses the relocation of above-ground water main (work item number 2). Board forces will remove the main prior to bridge reconstruction and replace and insulate it after reconstruction.

MnDOT is responsible for the Board's actual costs of the relocation, which are estimated to be \$24,037.81.

See attached location maps and Agreement.

RECOMMENDATION

Approval is recommended.
