Re: Request for Change Order for Trout Brook Nature Sanctuary Lift Station Project

Dear Mike:

Capitol Region Watershed District (CRWD) kindly requests that the City of Saint Paul authorize repairs for CRWD's Trout Brook Storm Sewer Interceptor (TBI) via a change order in an amount not to exceed \$30,640 for the Trout Brook Nature Sanctuary Lift Station Project. CRWD will reimburse the City for the TBI repairs.

In early February, defects in TBI were discovered during excavation of the TBI invert for the pipe connection to the lift station. CRWD's TBI engineer has designed repairs to address the fracture and void in the TBI invert and a quote was solicited from the City's contractor, S.M. Hentges & Sons. CRWD staff have reviewed and approved the repair quote from Hentges (attached). Authorization to approve the repair cost and reimburse the City was given to CRWD's Administrator by CRWD's Board of Managers at their Feb. 21st Board meeting. The minutes of this meeting are attached.

Thank you for your consideration and please contact me if you have any questions, mark@capitolregionwd.org or 651-644-8888.

Sincerely,

A handwritten signature in black ink that reads "Mark Doneux".

Mark Doneux
Administrator
