Subject: 1270 Cleveland Ave. S. (John Krenik)

Good morning Marcia. I was at John Krenik's House to look over the rear exit that has a wall installed to block exit out of the south side. You cannot get to the door that was never installed with stairs for proper exiting. He said that someday he will make this into a proper exit system. There are no code for this doorway for exiting. I am ok with this being blocked so no one can get hurt if they would walk out with no landing and stairs for now.
