Egress Window Non-Compliant Determination

Ronald E. Burth
Shannon Burth McDonald
1077 Englewood Avenue
St Paul, MN 55104

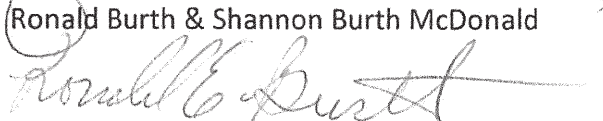

November 3, 2011

It has been brought to our attention that the State of Minnesota and the City of St Paul have adopted a set of construction standards regarding Egress Windows and that our bedroom window openings are just shy of the minimum allowed for our home to continue to have double hung windows in our bedrooms.

Our home was built in 1926 and has beautiful original wood frames and sills. We would like to continue with the homes original intent and look by replacing our double hung windows with replacement sets of more energy efficient double hung windows, while still being able to keep its original wood frame and sills.

We respectfully wish to appeal the Egress Window code requirement as the remaining options would cause us to lose existing wood and/or pose a mismatch issue with our remaining windows. We don't want to take away from the original cosmetic integrity and beauty of the style of home we have lived in for the past 17 years and wish to continue to maintain. Your consideration in granting this request is much appreciated.

Sincerely,

Ronald Burth & Shannon Burth McDonald
