Re: **Violations of License Conditions – Twin City Fleet Repair  
Auto Repair Garage License ID #2007003991**

Dear Mr. Vojtech:

In February of 2015, staff from the Department of Safety and Inspections (DSI) performed a follow up inspection regarding the conditions of your license at the above referenced property. On March 3, 2015, you were issued orders to make site improvements in accordance with the approved site plan dated November 5, 2007. It was found at the time of the inspection the property still was not in compliance despite having sufficient time to make site improvements.

On June 11, 2015, DSI staff sent you an email stating that the property would be inspected again in the first week of September of 2015. On August 31, 2015 our office received a letter of hardship from you stating that you had financial issues that prevented you from making the improvements required by DSI in order to operate your business.

On March 28, 2016, a DSI inspector went to the property to see if any of the site improvements were completed. It was observed that the property still was not in compliance and there were several conditions of your license that were in violation including, but not limited to:

- The number of vehicles stored outdoors must not exceed (14) fourteen. All long term vehicles as shown on the approved site plan on file with DSI, dated 11/05/2007.
- All vehicles parked and/or stored outdoors must appear to be completely assembled with no major body parts missing
- The license holder agrees to maintain the fencing, vehicle location and vehicle barriers in a manner consistent with the approved site plan

Based on previous reports submitted by DSI staff and inspectors, I am requesting that the City Attorney's Office recommend an indefinite suspension of your license until the property comes into compliance and all outstanding fees and/or penalties have been satisfied.
