

680 Ortega

Before all this with the order to vacate came about the plan was
1. After daughter & family moved to

Replace ^{all} carpeting upstairs / downstairs
linoleum flooring
upstairs bath
downstairs bath
front porch

Replace furnace / water heater / central a/c
These are from 1984

Find the rails that had been broken off (brackets) & fix

Replace Windows

- basement windows are broken from many teens climbing in & out
- porch - for protection & warmth in winter
- Living Room / Office ^{probably} / Bed room
- most of the screens were removed by teens to get in & out

Pictures have been included

Plan for Now

- daughters have been helping with the 'declutter'
- a dumpster was provided by House Calls and is being used however there are also other people in the neighborhood adding things in
- I do not have funds available to do all of these things

Plan - Had been planning the big things after inheritance came

My Dad passed March of this year and estate probably won't be settled for another 6-9 months (last I heard)

So I have forms to apply for loan

- I don't qualify for low interest loan
- I'm not over 62 yet (in August)

- My daughter has been trying to find other housing (calls to most MA Counties) she may have a rental available for then July 1st

- My daughter / boy friend / 3 small kids are messy but to her credit she has put in 4⁺ days of intensive work on cleaning messes

• Electrical - I personally know 2 friends who have electrical business & have been trying to reach them

• I have a resource for finding a handy man for the numerous repairs

• My stepbrother's daughter's boyfriend works installing flooring

• My stepsister's husband sells paint although there are just a few places left

- Outside siding - is a necessity for our association but is still being held off since we have had a few owners not paying association dues - this is starting to get back on track
