L Remarks:

Saint Paul fire crews were dispatched to reports of smoke and fire inside a residence.

Crews arrived to find people outside of an up and down duplex with smoke showing from the 2nd floor side Delta.

Further investigation found smoke and fire emanating from a window on the stairwell going to the second floor, side D. Pre-connects were stretched, however light water extinguishers were utilized to extinguish the small fire coming from an approximate 3' x 6' window. Window was removed and overhaul removed siding both internal and external for full inspection and further extinguishment.

Board up was called and arrived to secure a window. A smoke detector was installed a top of stairwell for additional notification of residents. Fire cause remains under investigation by Car20-Back-up Fire Investigator Gregor.
