Subject: Juno ave street project

I am a senior citizen receiving only a social security. I cannot afford the assessment added to my property tax. Top it off interest added also. That is absurd. My property tax is \$3,600 this year. I lived in a house less 1000 square feet. Repairing the street really necessary. Just repair the pot holes. I don't want to lose my house over this increase. I live here 34 years. Please help me. I pay property tax no additional cost should be added.

I sent you this email on 4/8 I live on Juno ave. I watch the Council Meeting you had to today. I listen to Chris Tolbert talk about the project. We have curbs. One street light is fine. I cannot afford this. Please think of your senior citizen and what the impact it will make on us. The cost is to high. Should be no interest rate. Remember I pay property tax. I thought street repair was included in the property tax. Boy the Joke is on me.

Concern,
Pat Wilson
