Andrew Bream called and said that he would like Councilmember Noecker to vote no on the rezoning of 2069 Marshall. The property was carefully rezoned in 2018. That was a carefully thought out zoning and is appropriate for the neighborhood. T3 is not in scale to the neighborhood. All the goals can be accomplished with the current zoning. Mr. Bream is sure that Councilmember Noecker has received lots of calls and e-mails on this issue. He encourages her to listen to the neighbors.
