Air Compressor/Cascade/Fill Station (Fixed or Mobile) for filling SCBA

DESCRIPTION

The St. Paul Fire Department (SPFD) would like to replace necessary equipment that is obsolete and in ill-repair to increase our operational capability and our efficiency in training programs. We are requesting funding to replace our air compressor and add an additional SCBA Fill-Station with more capable, more efficient and more reliable equipment. Our current compressor is 23 years old, severely undersized, has needed repair multiple times per year and is no longer capable of achieving 4500 PSI. This compressor was purchased prior to SPFD converting to 4500PSI SCBA systems. Our accompanying fill station is 18 years old and has the capacity to fill 3 bottles at a time. Replacing this equipment would immediately improve operational safety. Fitness Assessments and Counseling

DESCRIPTION

The Saint Paul Fire Department is requesting funding to train and certify 30 firefighters in the IAFF/IAFC Fit to Thrive Certification, to improve the health and wellness of fellow firefighters. With the Fit to Thrive Certification, professionally trained firefighters will have the ability to influence their peers toward a common goal of preventing injuries and improving physical, psychological, and social well-being. A firefighter is a tactical athlete; someone whose occupation involves both physical and mental challenges. To ensure that these tactical athletes are at their optimal capacity, it is imperative that a well-rounded health and wellness program is maintained and adaptable to the individual needs. Fit to Thrive instructors will be able to administer annual fitness assessments, design and implement exercise programs for their peers, assist with healthy meal planning, injury prevention, and promote a wellness and fitness culture for the entire department. Fit to Thrive peer trainers will also be largely utilized in training fire recruits during firefighter academies, designing exercise regiments, and educating others on the importance of health and wellness during their whole career and long into their retirement. The cost of this program is \$800 per person certified as a Fit to Thrive trainer. We are requesting funding to certify 30 trainers for a total request of \$24,000.

Part 100. The prohibition on disability discrimination includes the requirement that new multifamily housing with four or more dwelling units—i.e., the public and common use areas and individual apartment units (all units in buildings with elevators and ground-floor units in buildings without elevators)—be designed and constructed with certain accessible features. (See 24 C.F.R. Part 100, Subpart D.)

Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of the structure or permanently affixed to the infrastructure project. When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements. (a) When the federal agency has made a determination that one of the following exceptions applies, the awarding official may waive the application of the domestic content procurement preference in any case in which the agency determines that: (1) applying the domestic content procurement preference would be inconsistent with the public interest; (2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or (3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent. A request to waive the application of the domestic content procurement preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and

must be reviewed by the OMB Made in America Office. There may be instances where an award qualifies, in whole or in part, for an existing waiver described. Before making any change to the FEMA approved budget for this award, you must request prior written approval from FEMA where required by 2 C.F.R. section 200.308.
