Good Morning,

District 6 Planning Council received a few calls concerning outside barbecuing, tents, tables set up at Tin Cup's parking lot Sunday October 2nd. Food & beverages were being served outside. It was noticed by residents around noon. District 6 wasn't informed nor asked for any extension of services at this location at any time. We are under the impression that an extension of service is required. Please let me know so I may contact the neighbors. They are wondering if this is allowable and if this will be an on-going action by this establishment and what if anything can be done about Sunday, District 6 is concerned as well. Thank-you.

Kerry Antrim
