Memo Regarding: Design of St. Paul's new ballpark

Please consider us among those who support a delay in demolishing the *Gillette* building until a more thorough investigation is made of utilizing the building in the ballpark design. Providing additional parking is *CRUCIAL* to the success of the park and in encouraging a thriving, healthy downtown!!! It is also important to consider making the park a year-round facility.

My husband is a life-long resident of St. Paul; I have lived in St. Paul for 39 years and we have lived in the *Airye Condos* for 18 years. Both of us worked and volunteer in St. Paul. We love and care about this city; we are excited about having the ballpark in our neighborhood. Please explore all options before proceeding.

Thank you,
Leah and Charles Droubie
