Re: Sewer Repair
5 & 7 East Sandra Lee Drive

Email: wschoumaker@gartnerstudios.com

It is my opinion that the existing sewer line failed at the fernco couplings thus causing the sewer to back up. This is most often due to poor compaction underneath the fernco couplings in the area where the sewer pipe failed.

Regards,

Tony Curella

Re: Claim Number C231154

Walter Schumacher,

I received your claim with the City of St. Paul and have concluded my investigation. Please refer to the above file number in any correspondence with me. I will not be contacting you by telephone. The work performed in November of 2023 was solely limited to the City as observation. The last worked performed by the City was performed under permit in March of 2013. The statute of limitations as to any work, faulty or not faulty, has long since expired. I must respectfully deny your claim for negligence on the part of the City of St. Paul. I will leave my file open for one (1) month if you wish me to send your claim for reconsideration.

If you have additional documentation that you feel relates to this claim, you may forward it to me via email at mark.lorentzen@ci.stpaul.mn.us using the above claim number as the subject matter.

Sincerely,

Mark Lorentzen
