For clarification purposes, what is the business address or name of the business for the license application you are referring to in your email.

Sirs:

I have made comment regarding single serving sales at this location on at least one prior occasion. It has been my frequent experience that pedestrian customers consume these items on my property and litter the empty packages. In addition, it has been both my personal experience and reported to me by my patients that these same pedestrian customers "pan handle" immediately prior to entering the establishment.

Personal requests to store management have been ineffective to reduce the frequency of this nuisance.

I request that sales of consumable items be restricted to packages containing not less than six (6) of the same size and volume of materials or that any single items contain not less than one (1) liter in volume.

I welcome all new owners. I patronize local business and expect that they are good neighbors without creating a nuisance.

Thank you for your consideration!
