Hello my name is William Olson and I would like to contest this on behalf of my mother GabRiele Langeslay who gave me permission to park my vehicle behind he garage while I was working in another state. I owned that BMW and the reason it didn't have correct tabs is because the previous owner Dustin Sistas lost the title and was waiting for a replacement for us to transfer the title and get the right tabs on it. I was working out of state and it was not my mother's fault she shouldn't get billed for this. Please respond with further instructions on how to proceed. Thank you for your time.
