Objections regarding license application for 675 Snelling Ave N, Metro Auto.

The recommended License conditions regarding:

1. Tow truck delivery
2. Street parking for customer cars
3. Back door closed at all times except when cars are entering or exiting

These conditions cannot be regulated. By the time an authority witness (police or DSI) show up, the condition no longer exists. The Licensee should accept a neighbor video or photo to be sufficient evidence of a violation of conditions.

This license conditions cannot be abided by:

Tow trucks do not fit inside the entry way to the building because the tow trucks are too big.

Delivery after hours cannot be regulated because the tow truck drivers do not know where to drop the cars. The doors are locked and closed. They leave them all over the public right of way, 24 hours a day, so yes, 1am, 3am, etc. It is extremely noisy as well

Add: No stereo sound equipment testing or installing, nor stereo noise which includes thumping without sound. This also is a condition that a neighbor video is sufficient of a violation of condition.

No loitering after hours.

Must pick up trash in alley as a shared responsibility of each alley business.

Thank you,
Marjorie Conrad 651-230-5113
