(C) 1(651) 214-1159

CITY CLERK

The windows of my home face Fitzgerald's.

Since they opened as Fitzgerald's, almost every night there are large groups of mostly men all over the corner and often into the streets. I have seen them with open drinks in their hands.

These are my only windows to open for fresh air. But even with them closed, I can often hear loud and sometimes drunken talking going on across the street. They even come across, sit, smoke, drink and leave their trash on our front steps. When asked to leave (as they are right under my windows) they are often disrespectful. I cannot move my condo building.

I have lived here since 1995 and never have there been this type of groups in front of (formerly Costello's) now the Red Cow, WA Frost's or Nina's. Each of those businesses have people outside but they are much more considerate of their neighbors and caring about the neighborhood.

I am firmly against Fitzgerald's having an open space outside until midnight every night! Their ownership seems to be very uncaring about those of us who live close by UNTIL they decided they wanted our approval to benefit their business regardless of the true impact on the neighbors.

Please let me know of the date and time for your hearing about this matter. Thank-you.

Sincerely,

JoBeth Marshall
