L Remarks:

The Saint Paul Fire Department responded to a report of smoke billowing from the boarded-up windows of a two-story commercial building.

On arrival crews encountered smoke showing from the boarded-up windows of the second floor and moderate smoke in the general area. Crews forced entry into the building through two "man doors" and removed the plywood covering from the first and second-floor windows. Crews located a small fire that they quickly extinguished in the stairwell. Crews also reported finding what they believed may have been a second ignition point that appeared to have burnt itself out. Crews also noted the odor of gasoline. Crews ventilated and conducted searches as visibility improved, finding multiple holes in the floor on the second floor.

Once Car20-Back-up Fire Investigator Gregor completed his investigation, crews completed overhaul and a final washdown using Class-A foam. The owner was contacted by DSI, and the scene was turned over to the property owner and board-up personnel.
