RE: Gerald Chapman – 1819 Marshall Avenue – St. Paul, MN 55104 - #13986

TO WHOM IT MAY CONCERN:

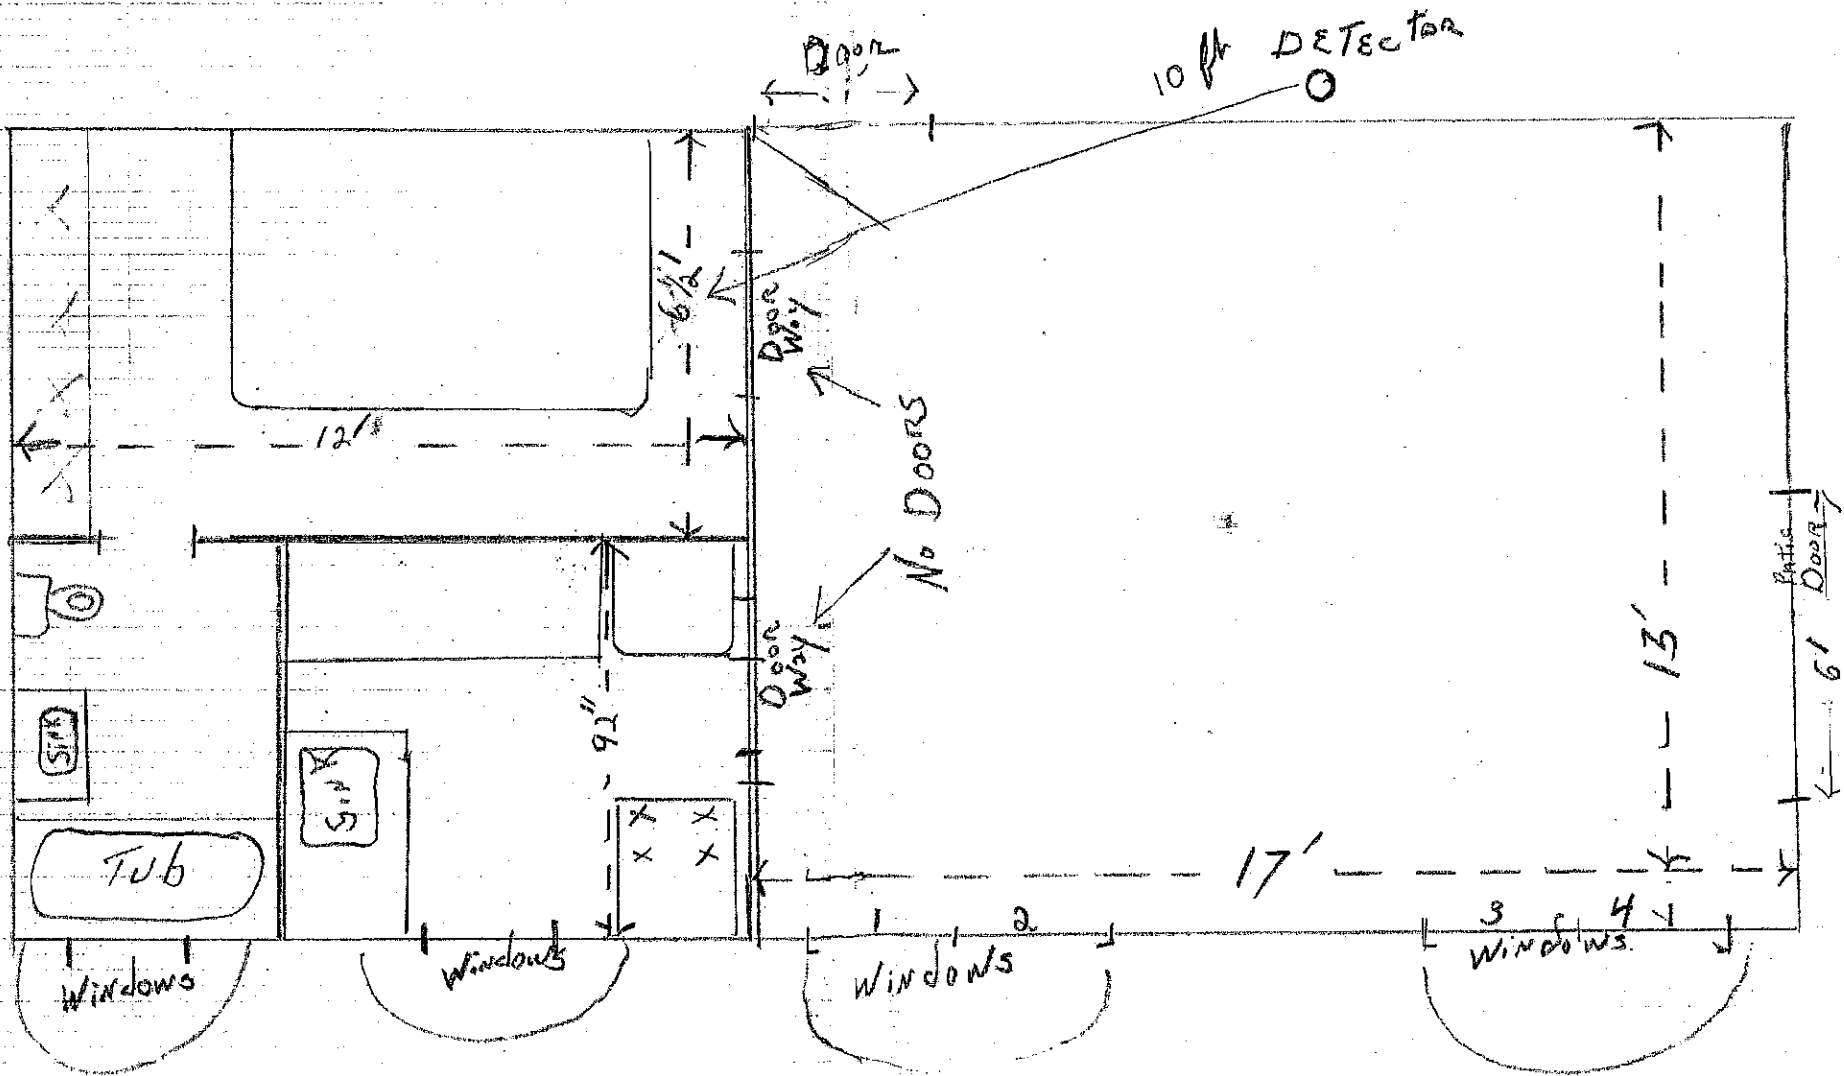

I am appealing #2 of Fire Inspection Correction Notice. Enclosed find drawing of the apartment(s) layout. The apartments are approximately 390 square feet. We rent these smaller units to only one person. There are 6 windows in the units, 1 patio door, and 1 exit/entrance door. The area the inspector is calling a "closet" is 7' x 12'. This area is located right next to the exit/entrance door. There is also a bathroom window 6 feet away. There is quick access to any of the windows, the patio door or the exit/entrance door. At one time, the area in question had a door that closed. The doors have long ago been removed, thus making the large room and the area in question one entire room. We will have pictures at the hearing. Some tenants use that part of the room as an office, an art area, a TV room, or as their bedroom. Some have futons, couches, beds, desks, etc. in this area in order to utilize the living space.

This building is approximately 90 years old. I have owned it for 30 years. I have put thousands into the building to upgrade it and make it an asset to the Merriam Park area. It has been inspected and certified several times during my ownership; 6 years ago by Michael Urmann. The use or deficiency of these apartments that the inspector is citing us for has never been an issue or addressed. I am enclosing copies of the certificates I have received since I purchased the building in 1986.

I do not want to add another window (making it 7 windows in this small unit), of which the window would have to be put in the hallway of the building. I feel this would make it unsafe for tenants and also take away from the character of the building. I also feel it is not proper or polite to tell a tenant how to arrange their living quarters that they pay rent for. A reinspection of these units by a supervisor might be the answer.

Sincerely,

Gerald Chapman, owner
