Legislative Hearing Officer

I would like to say for the record that I am opposed to adding an Entertainment license to Habanero Tacos Mexican Grill and Bar. The little mini-mall on Snelling between Portland and Ashland in in the midst of residential housing. My bedroom in the house at 1559 Portland is right above the establishment. Amplified music would certainly interfere with my evenings. I have lived here for over 49 years and there have never been establishments requesting that additional license. Wild wings just had lots of TVs on mute so it did not bother the residents. I hope you consider that there are family homes surrounding the mini mall that would be unpleasantly impacted by loud music from the Bar and grill.
