Saint Paul Comprehensive Downtown Improvement Special Service District **Proposed Service Charge -- Calculation Summary**

2025 District Budget for Full Program Implementation: \$2,724,706.90

Method of Financing: Service charge on commercial and industrial parcels in the Downtown Improvement District, plus volunteer contributions from public sector tax-exempt properties

Allocation of Service Charges: Annual service charges for affected parcels are based upon allocating program costs across all parcels according to two variables: building square footage and linear front footage. After deducting the voluntary contribution associated with city- and county-owned tax-exempt parcels (calculated using the same rate as commerical parcels), seventy percent (70%) of remaining costs are allocated based on building square footage; thirty percent (30%) of costs are allocated based on linear front footage.

Calculation:	2025 Charges			Total Square Footage/Front Footage		Proposed Rat	Proposed Rates	
	Total:	\$2,724,707						
	-25%	(\$682,431	less City/County Contribution					
	75%	\$2,042,276	Commercial and industrial parcels subject			<u>Residential</u>		
			to service charge			\$0.0383	per square foot	
	67%	\$1,362,587		24,454,632	total square feet	\$8.1700	per linear front foot	
	33%	\$679,691		57,713	total front feet	<u>Commercial</u>		
						\$0.0639	per square foot	
						\$13.6100	per linear front foot	

For each property subject to the service charge: 1) the building square footage is multiplied by the per-square-foot rate to produce a sub-total, and 2) the linear front footage is multiplied by the per-linear-front-foot rate to produce another sub-total. The two sub-totals are added to produce the total special service charge for the property.

Sample Property (Residential Condo):		Sample Property (Commercial):		
Square footage	Linear front footage	Square footage		
650 square feet <u>\$0.0383</u> rate per square foot \$24.90 Sub-total	6.8 linear feet \$8.17 rate per linear front foot \$55.56	100,000 square feet \$0.0639 rate per square foot \$6,390.00 Sub-total		
\$80.4	5 2025 Service Charge	\$10,473.00		

Exhibit B

Linear front footage

300 linear feet \$13.61 rate per linear front foot \$4,083.00
